

# Nick Pleatsikas

Emeyville, CA 94608 • nick@pleatsikas.me • pleatsikas.me

LANGUAGES	Python, Go, C/C++, Bash
TECHNOLOGIES	Git, Ansible, Chef, Terraform, Docker, Flask, Firebase, RHEL
EDUCATION	<b>University of California, Riverside</b> , Riverside, California <ul style="list-style-type: none"><li>B.Sc., in Computer Engineering <i>Expected Jun. 2020</i><ul style="list-style-type: none"><li>GPA: 3.76</li></ul></li></ul>
WORK EXPERIENCE	<b>Minds.ai</b> , Santa Cruz, CA <ul style="list-style-type: none"><li><b>Infrastructure Engineer/DevOps</b> Jan 2016 – Present<ul style="list-style-type: none"><li>Created software to bridge internal systems that had been disconnected, eliminating several tasks that required manual work by developers, IT, and other internal staff. A couple of examples of this software can be found in the Projects section below.</li><li>Introduced and standardized provisioning, configuration management, and IaaS tools like Ansible, Chef and Terraform into IT processes.</li><li>Implemented tools like Ansible and Terraform to simplify maintenance and resource creation. Eliminated the need for administrators to manually make changes across multiple systems using said tools.</li></ul></li></ul> <b>Minds.ai</b> , Santa Cruz, CA <ul style="list-style-type: none"><li><b>Intern System Administrator</b> Jun 2015 – Aug 2015<ul style="list-style-type: none"><li>Deployed initial servers used by developers to develop DL/ML software. Wrote basic management software and assisted in migrating from AWS to internal infrastructure.</li><li>Implemented communication tools like Slack that improved overall accessibility for our distributed workforce.</li></ul></li></ul> <b>Kirby School</b> , Santa Cruz, CA <ul style="list-style-type: none"><li><b>IT Intern</b> Jun 2014 – Aug 2014<ul style="list-style-type: none"><li>Assisted in design, implementation, and build of completely new network to serve 250 students. Improved overall capacity by a factor of 10. Improved network stability and accessibility.</li><li>Rolled out first set of Chromebooks following study of student preference and productivity on various models.</li><li>Assisted in reimaging computers.</li></ul></li></ul>
PROJECTS	<b>certcommander</b> : Python <ul style="list-style-type: none"><li>A tool that automates the generation and renewal of SSL certificates using the ACME (Let's Encrypt) service using DNS challenges. Designed to be fully fault-tolerant; it can resume its previous state if it is restarted or crashes. Allows the user to define plugins to work with any DNS provider. Implements a plugin system for responding to internal events. In the process of being open sourced.</li></ul> <b>zoom-drive-connector</b> : Python <ul style="list-style-type: none"><li>An automation tool designed to automatically copy recorded meetings from Zoom to Google Drive. This software has been running in production for nearly 18 months.</li></ul> <b>µMega</b> : C <ul style="list-style-type: none"><li>A state machine based operating systems and kernel with real-time user interaction written for the ATMega 1284 micro-controller. This required the design and implementation of a custom filesystem and console graphics libraries. This project also employs asynchronous message transport between state machines.</li></ul> <b>repo-combiner</b> : Bash <ul style="list-style-type: none"><li>An archiving tool that combines multiple repositories together using advanced Git branch merging. Written to archive multiple separate repositories created in a university course on a different version control system.</li></ul>
RELEVANT COURSE WORK	<ul style="list-style-type: none"><li><b>CS100</b>: Software construction</li><li><b>CS111</b>: Discrete Structures/Math</li><li><b>CS141</b>: Intermediate Data Structures and Algorithms</li><li><b>CS164</b>: Computer Networks</li><li><b>CS171</b>: Machine Learning and Data Mining</li></ul>

## AWARDS

- |  |   |
|--|---|
| ■ BCOE Dean's List   | Sep 2016 – Dec 2017, Apr 2018 – Present |
| For achieving a GPA of 3.5 or higher per quarter.                              |   |
| ■ Kirby School Community Service Award   | May 2016                                |
| For 4 years of volunteer IT work to the school.                                |   |
| ■ Kirby School Technology Award  | May 2016                                |
| For dedication toward the fields of technology, specifically computer science. |   |
